

Soft Bin Tipper

Do you need a bin tipping solution that prioritizes the care of your produce? KW's Soft Bin Tipper is engineered to gently release fruit from bins into your infeed system, preserving quality and ensuring your produce stays in top condition.

Key Features:

- **Gentle Produce Handling:**

Designed to carefully release produce at an efficient pace, the Soft Bin Tipper allows for high-volume processing without compromising quality, keeping your fruit in optimal condition.

- **Automated Tipping Control:**

Easily initiate tipping with the HMI screen or a handheld remote. Control the flow rate by adjusting settings in the HMI to match your specific requirements, smoothly raising the bin until all produce is released before returning it to the starting position.

For more bin tipping solutions, please visit the KW Automation website: www.kwautomation.com.au.

- **Robust, Durable Construction:** Built with a full stainless steel frame and powered by a reliable hydraulic system for longevity and controlled operation in demanding environments.
- **Custom Bin Compatibility:** Tailored to fit bins from 1000x1000x400mm up to 1200x1200x1000mm, ensuring perfect integration with your operation.
- **Adaptable Loading Options:** Features bin side loading and adjustable bin height, accommodating various bin sizes and loading preferences.
- **Floor-Level Accessibility:** Load bins easily with a forklift or pallet jack, minimizing handling time and effort.
- **Complete Two-Year Warranty & Support:** Backed by KW's commitment to quality with a comprehensive warranty and dedicated after-sales support.
- **Australian Made Quality:** Proudly crafted in Australia for exceptional reliability and craftsmanship.
- **Performance:** Ability to tip up to 10 Bins per hour! (Performance does depend on your operation and what outfeed system you have to handle the amount of fruit tipping.)
